Occupational Health Services
US Domestic and Global Solutions

Since 1980
LEADERS IN OCCUPATIONAL MEDICINE

We are Occucare International, an Occupational Medicine facility, specializing in and 100% focused on the treatment of work-related injuries and advocating the health and safety of your workers.

Our four clinics offer large capacities and even greater capabilities, with locations including Houston, Deer Park and Port Arthur. We have recently opened a new state-of-the-art facility in Dubai, UAE.

We provide quality Occupational Health Solutions to domestic and international clients in the following industries:

- Offshore Oil & Gas
- Government
- Department of Defense and Military
- Petrochemical
- Transportation, Air, Land and Sea
- General Industry
- Food Service
- Construction

Whether you require a single assessment at a clinic near you or a comprehensive medical solution abroad, Occucare International has the resources to deliver prompt, dependable care to satisfy the most rigorous demands.

Occucare International is committed to providing world-class health care for domestic and international clients. We can deploy a medical team anywhere in the world within two to four weeks.

OCCUPATIONAL HEALTH INTERNATIONAL (OHI)
The first dedicated occupational health facility in the UAE.*

OHI is a joint venture and partnership with Occucare International and Gulf Healthcare International. Our specialty departments have the capacity to service more than 300 patients per day with on-site radiology and dental suites plus a high tech laboratory. We are confident of offering fast, professional and efficient service to you and your employees.

Visit occupational-healthcare.com to learn more about our groundbreaking global impact.

*UAE (United Arab Emirates)
SAME DAY RESULTS AND CERTIFICATIONS
OccuCare International has conducted tens of thousands of medical assessments and physical examinations with **24 to 48 hour turnarounds**.

OSHA COMPLIANCE WITH OUTSTANDING RECORDS
Our professionals are both proactive and reactive, accurately accessing the needs and abilities of each employee to prevent on-the-job injury. Aggressive injury management allows us to pinpoint the problem, only performing the necessary treatment while keeping the quality of care high to help your company maintain a low recordable rate and have your worker back on the job with limited downtime.

OCCUCARE INTERNATIONAL PROFESSIONALS
Each physician with OccuCare International is a certified Medical Review Officer and an expert in OSHA and EMSHA regulations. We understand the health and safety of your workers is pivotal to the success of your business. Our team advocates their well being for your continued success and the prosperity of your workers and their families. That is why our professionals not only treat patients with exacting precision, but with utmost compassion.

INTERNATIONAL TRAVEL HEALTH SERVICES
Occucare International can expedite all your travel medicine needs when your business operations move internationally. We facilitate the travel of thousands of individuals to locations in every corner of the world, with results available within 24 to 48 hours.

International travel health services can also include:

Deployment and Department of Defense Medical Exams
We perform special travel exams to fulfill contractual requirements mandated for international government-related civilians, including public and private sector appointments.

Our personnel follows up each examination with medical reporting as appropriate. For consistency and quality assurance, a review of all exams is performed by Occucare International Medical Directors. Recommendations are made for further evaluation when warranted. Results within 24 to 48 hours

VACCINATIONS AND IMMUNIZATIONS
Occucare International features the lowest immunization cost available. Major immunizations we offer include:
- Hepatitis A & B
- Typhoid
- Rabies
- Tetanus
- Polio
- Japanese Encephalitis
- MMR
- Meningococcal
- Yellow Fever
- Malaria

TRAVEL MEDICINE ADVICE
Occucare International gives advice regarding everything from over-the-counter medications, management of current medical conditions, travel medical supplies and first aid kits.

OGUK MEDICALS
OFFSHORE O&G
For our offshore oil and gas clients, we perform offshore medical examinations to ensure an individual is fit to work in an offshore oil and gas exploration and production environment, and safe to travel to a specific country.

As well as carrying out the full range of statutory medicals, Occucare International doctors can create individually tailored medical examinations.

An OGUK Offshore Medical at Occucare International consists of the following:
- Completion of Patient Health History Questionnaire
- Urinalysis – routine urine test with immediate result
- BMI – measurement of height, weight and calculation of Body Mass Index
- Near, Distance and Color Vision
- Pulse and Blood Pressure Measurement
- Lung Function Test (peak flow)
- Audiogram (hearing test)
- Consultation with an OGUK doctor

Occucare International also performs:

ERT Medicals
The initial ERT Medical is similar to the OGUK Offshore Medical with the addition of an ERT Health Review, Spirometry (lung function test) and a Fitness Test (Chester Step).

Diving Medicals
The certificate of medical fitness to dive is valid for 12 months.

Seafarer Medicals (Coast Guard)
Seafarer Medicals are the main medical fitness certification for those who work at sea.

Climber Medicals
The Climbers Medical involves screening, a grip strength test, a fitness test (Chester Step) and a consultation with a doctor.

Ionizing Radiation (IR) Medicals
Personnel who have had significant exposure to ionizing radiation due to work activities in the nuclear industry, medical and dental practice, manufacturing, construction, engineering, paper, offshore drilling, education (colleges, schools) and non-destructive testing must have an initial IR Medical Assessment followed annually by either a Medical Assessment or a Paper Review.
